EXTREM.	Feet swelling Spasms Burning pain Ulcers on heel	decubitus stiffness & pain sore & bruised	spasms joints red & swollen red streaks radiating
SKIN	Ulcers c offensive d/c Gangrenous inflammation Itching, burning Swelling, edema	livid spots all over body & limbs putrid ulcers & stupor low delirium & pros- tration	dry & hot red eruptions like scarlatina suddenly spreading boils, supportive wounds

Calendula Tincture wash

To a 2 qt bowl of warm water add 1 dropper of Calendula tincture. This may be used as a soak, wash or poultice **for inflamed sores that are not healing**. This creates an **aseptic** field and can be helpful with open sores that develop with ebola virus. Can also clean skin. Can use as a spray.

Some of the remedies below are for symptoms as the disease process progresses. This disease is said to progress very quickly, so the remedy may change daily. Watch the symptoms carefully, change remedies as needed.

REMEDY:	EUPATOR. PERF	NUX VOM	PYRO
FEVER	high: 102+ With h/a throbbing Sore eyeballs	high with nausea	102-106 septic fevers Disparity between Pulse & fever Cold & chilly
LOCAL	begins @ 9 am < P drinking Aching bones & Muscles Severe headache Thirst for cold drinks	bloody saliva nausea & aches raw sore throat nausea & vomiting	< cold; throat dry muscle aches < motion, > heat
M/E	overwhelmed by pain	overexcited Sleepless fastidious Oversensitive	intense restlessness

SKIN	swollen, livid Lymphatics swollen Gangrene Cold with hemorrhagic Infiltration	purpura hemorrhagia swelling & discoloration septicemia eruptions surrounded by purplish mottled skin	bluish, purplish appearance ulcers with bluish purple surrounding purpura

NOTE: It is thought that bothrups would be a good remedy to use as a homeoprophylactic for Ebola. Previous experience with homeoprophylactics suggest that a total of 4 doses of bothrups 200C could be helpful. It could be taken in this way: first week: **1 dose bothrups 200c (just a few pillules).** Then the next week take one dose daily of bothrups 200C for 3 days. Another possibility is to take one dose a day for 4 days. If you have questions about homeoprophylaxis, please consult a homeopath familiar with these protocols.

REMEDY**ELAPS**

FEVER

typhoid, when ulcers have eaten into tissues
Black blood discharge, intermittent
